

# BLAST CHILLER Application

New application for vertical VISOTOUCH

PN 02/17 FEBRUARY

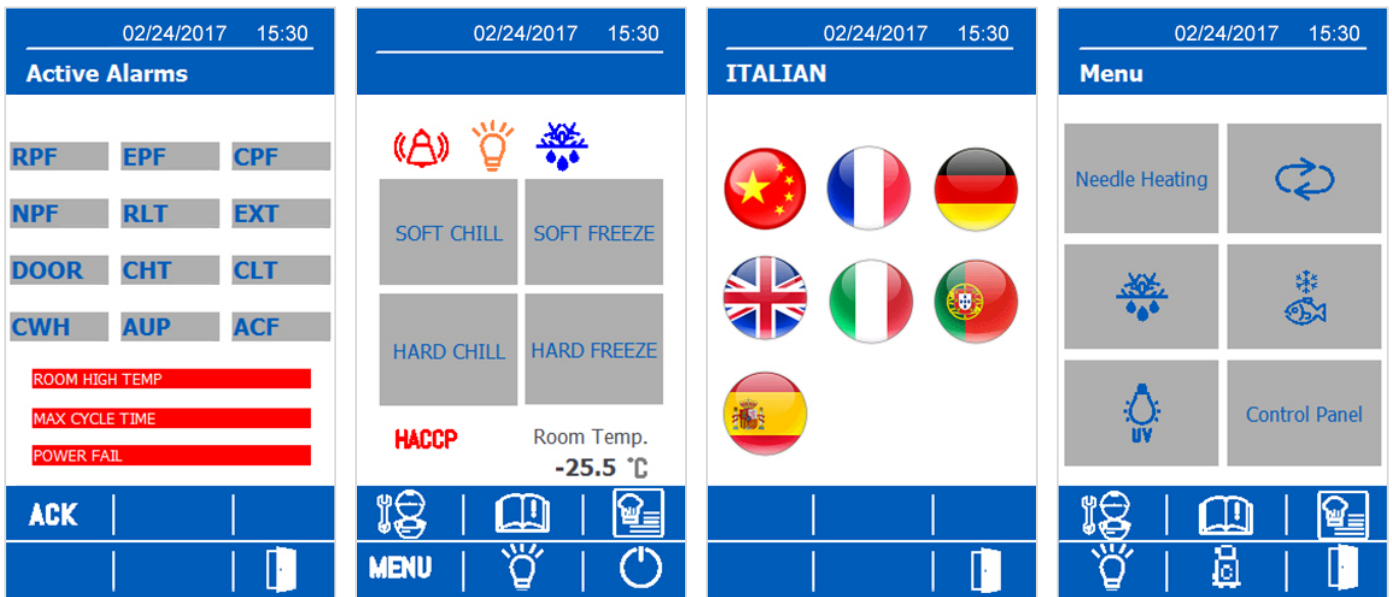

To meet the needs of applications relative to the blast-chiller world, Dixell offers a new interface developed on vertical format.

Starting from today you can install VISOTOUCH also on limited spaces or where the development of the interface must be vertical.

The graphic design, consistent with the horizontal solution, guarantees to manufacturers the same aesthetic on the whole range.

## 1. Family Feeling Design

All features of the horizontal VISOTOUCH are available in the vertical version, too.

## 2. Availability and orders

Starting from March 2017 it will be possible to order the new VISOTOUCH in vertical version. Please contact our sales department for prices and further information.
