rEG	CCS	Differenziale per fase di Pull Down (SET+C	0.0	0.0	Pr2	-12.0	12.0	°C		<input checked="" type="checkbox"/>

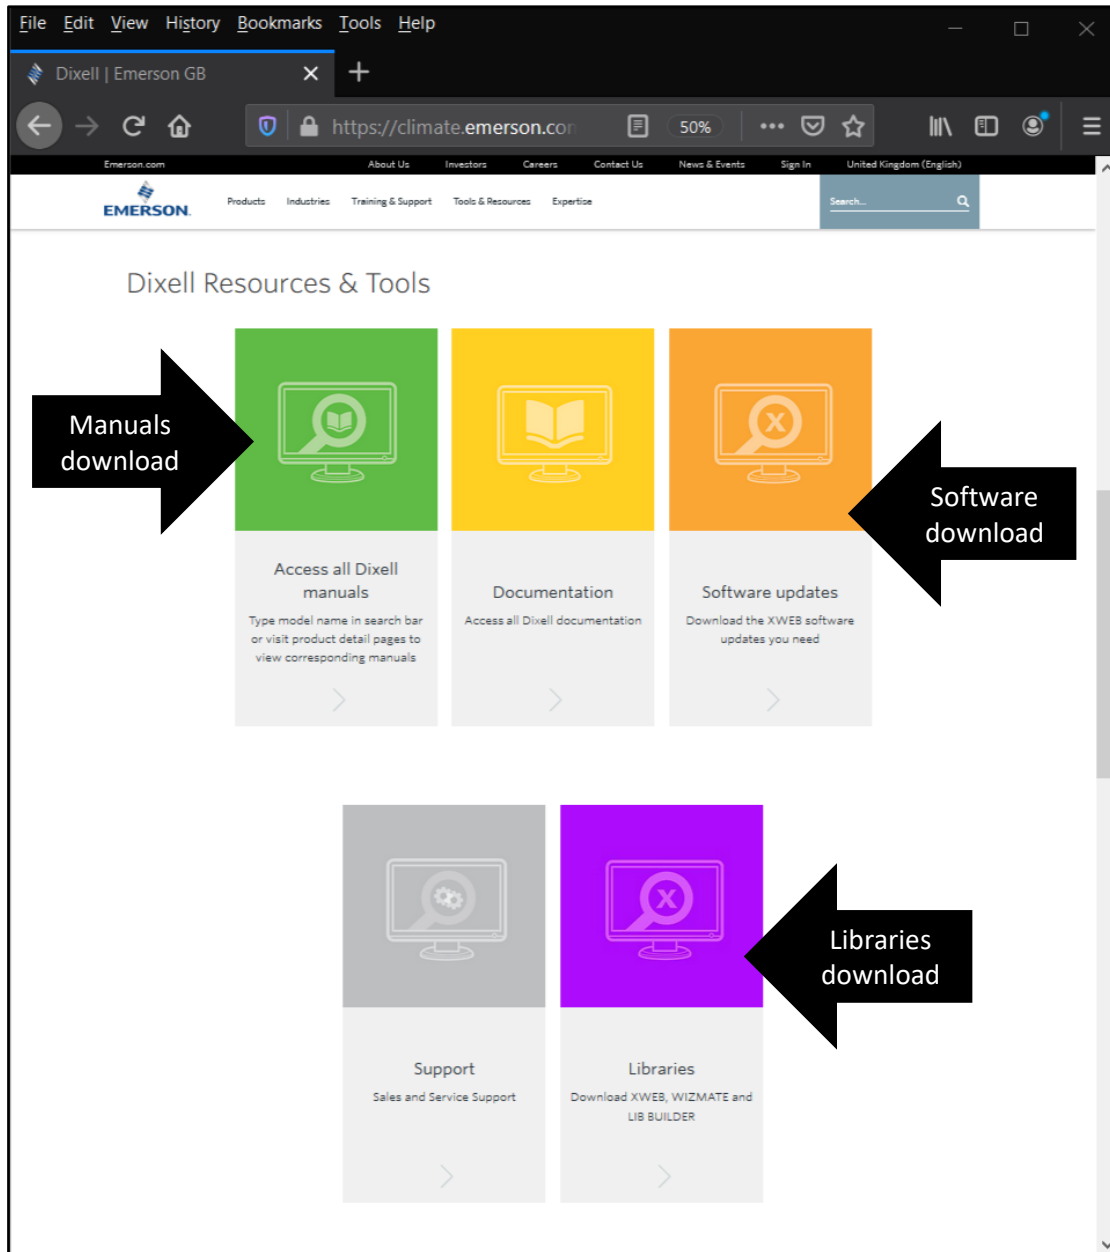

Dear Customer,

With the aim of continuously improving our products and focusing on our customers' needs, Dixell is pleased to inform you that a new software update is available for the WIZMATE tool.

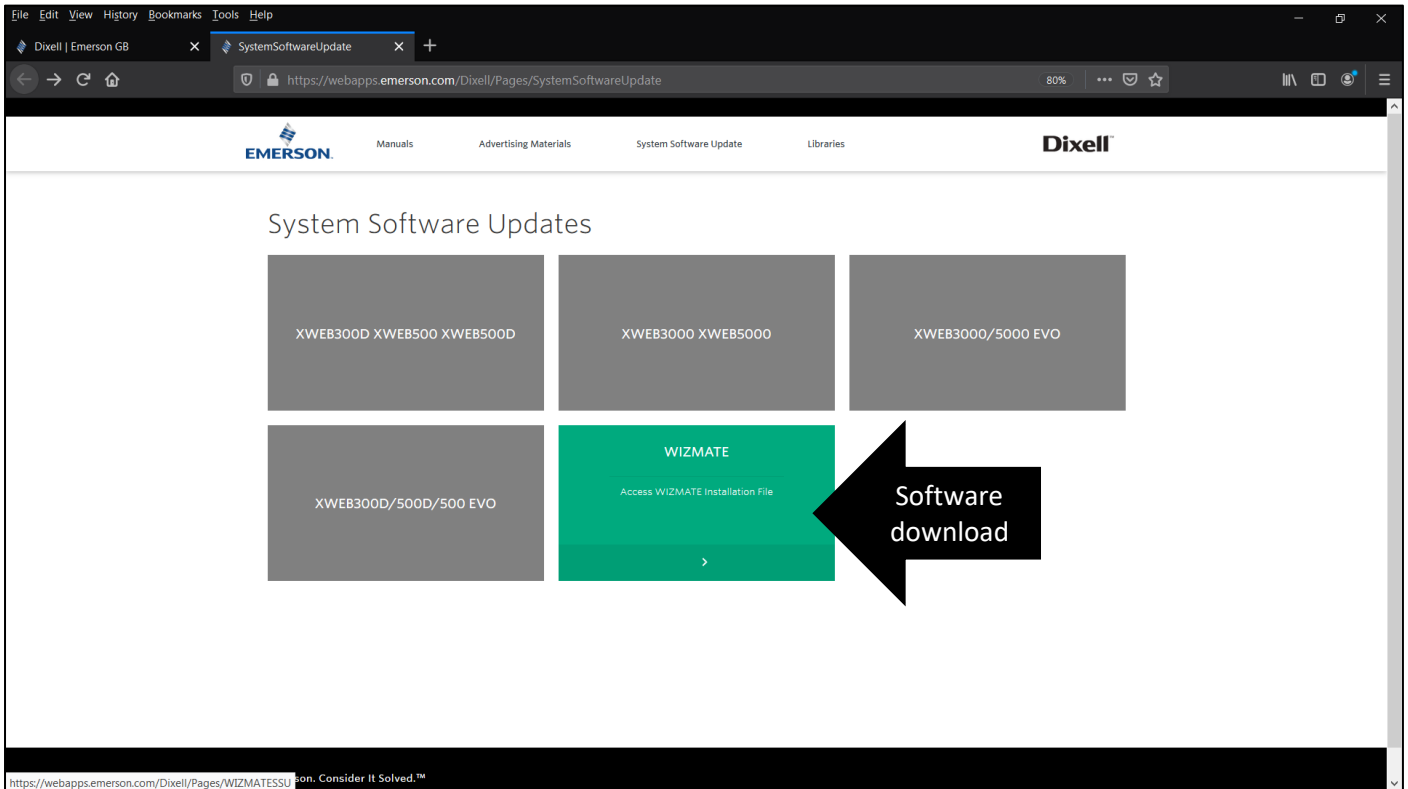

This new version allows Dixell digital controllers to be configured via computer in an easier and faster way and ensures full compatibility with Windows 10 operating system. The WIZMATE software and documentation are easily accessible online.

1. What's new

The continuous evolution of operating systems has required a WIZMATE software update. This new version is compatible with the Microsoft® Windows 10 operating system and is more stable and ensures higher performance. The new version is fully compatible with the previous libraries and with all Dixell PROG-TOOL and XJ485USB converters. Software and libraries are now available on our web site www.dixell.com.

The “Software Update” menu allows to have access to the WIZMATE software download area.

2. Support time limit for previous versions

Previous versions of WIZMATE software will not be supported after September 1, 2020.

Libraries of compatible products for previous versions of WIZMATE software will be supported until September 1, 2020.

3. Availability and orders

After April 2020 the WIZMATE PROG-TOOL KIT will include the DIN RAIL module (PROG-TOOL), CAB/PTK2 and CAB/PTK485 cables and the RS232-USB-CONV converter. Software updates will be available on the website to ensure the latest version is being used.

The new codes available are:

X0DK00000815-S00 - WIZMATE PROG-TOOL KIT 115V

X0DK00000855-S00 - WIZMATE PROG-TOOL KIT 230V

After April 2020, codes below are phased-out:

X0DK00000800-S00 - WIZMATE PROG-TOOL KIT 110V

X0DK00000850-S00 - WIZMATE PROG-TOOL KIT 230V

Please contact our Sales or Customer Service departments for further information.
